

Shiraz Medical Doctrine from Al-Bouyeh Period to Beginning of Safavid dynasty

S. A. Golshani, S. A. Foruzani, Z. Ghafouri, N. Kevenjoun

Abstract:

The quality systems of medical knowledge among different civilizations and the importance of the family has medical capabilities. One of these systems, Shiraz Medical School that historians and scholars of late has been less attention. Due to the length of expansions and subject to the review of the medical school of the Safavid Shiraz to start - pay. Scientific school of Shiraz, dubbed Dar-ol Elm takes to spare, having scientific schools, hospitals and medical centers and libraries had been equipped with an international reputation. Great scholars and scientists in this field began to establish schools that have developed new ways of medicine, medical progress and prosperity, were the cause. In this study we examine the major medical schools.

Keywords: school, medicine, Darallm, Shiraz, schools, hospitals.
